

# VacuJet®

Instantly clear clogged suction

A better way to clean fluids and debris

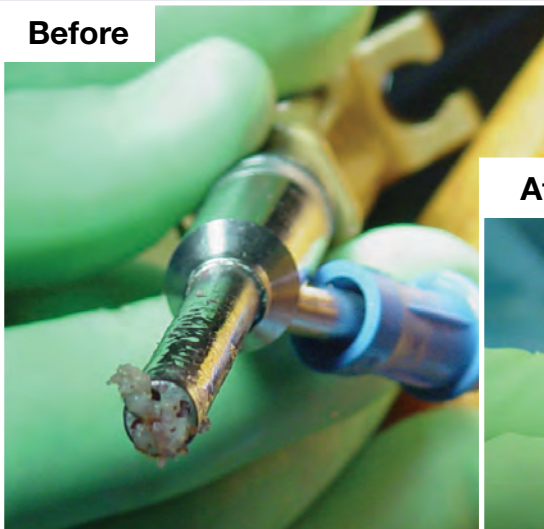

Does this look familiar?

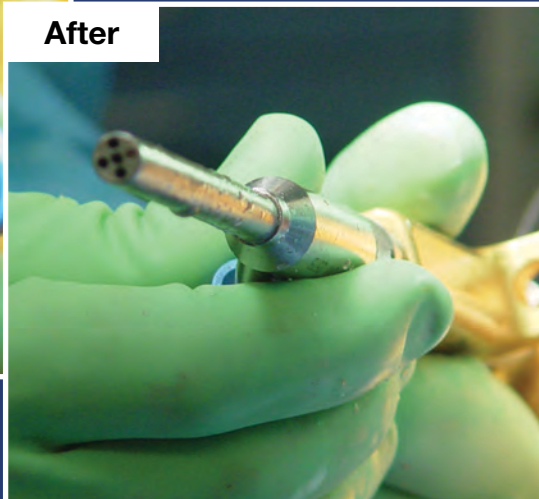

Clogged suction wand

A rapid blast of CO<sub>2</sub> from the VacuJet quickly and efficiently clears a clogged suction tip

Before

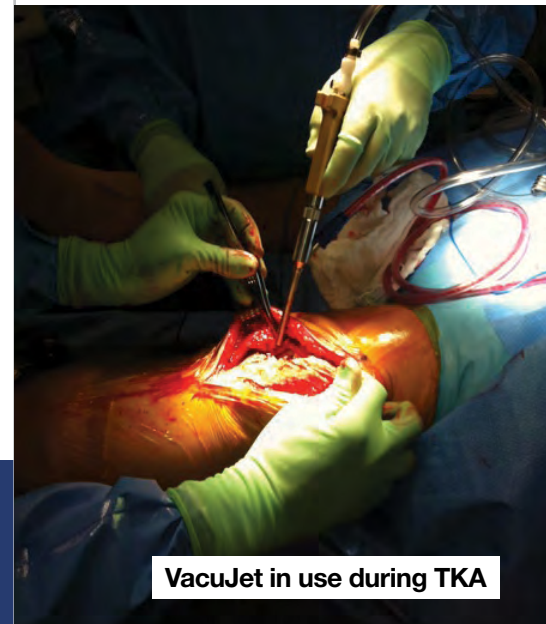

After

Self-Cleaning Suction

Save valuable O.R. Time<sup>1</sup>

Eliminate mess and cost

VacuJet in use during TKA

"For years, I have wanted a simple elegant suction tool that eliminated the fiddle of chronic plugging. Kinamed has created the perfect solution with a sucker on the pistol grip CarboJet handpiece."

**James B. Stiehl, M.D.**

# VacuJet® Self-Cleaning Suction Enhancement

- Traditional suction wands are easily clogged
- Cleaning/Unclogging wastes valuable O.R. time and increases procedure cost
- Clogged suction is a distraction for surgeon & staff
- The VacuJet is a nozzle “add-on” for the CarboJet® system that includes a suction tube with a filter screen at its distal end
- A rapid blast of CO<sub>2</sub> quickly and efficiently clears the blockage allowing the surgeon to get back to work with minimal disruption

**In a prospective randomized study, VacuJet was shown to save significant O.R. time versus two different traditional suction devices<sup>1</sup>**

## VacuJet® Items

<b>Catalog</b>	<b>Description</b>	
25-100-2001	CarboJet CO <sub>2</sub> Tube Set, Sterile Packed (each)	
25-200-0200	CarboJet Handpiece	
25-500-0242	VacuJet Suction Tube	
25-500-0244	VacuJet CO <sub>2</sub> Nozzle	
25-500-0246	VacuJet Suction Tube, Long	
25-500-0248	VacuJet CO <sub>2</sub> Nozzle, Long
